

SESAHUB

Nine modules on choice

6

(CODE 733066)

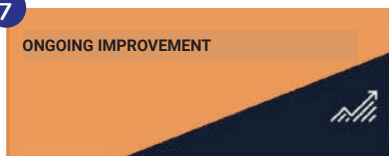

6. Make the internal communication easy

Company life There are many internal communications and it can be difficult to communicate well about all matters (events, CE, internal changes, client achievements etc.) with a traditional display. Accessing information is easy, intuitive and factors in the life of the company

- Dynamic display of company major events or flash news

7

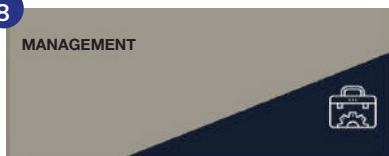

(CODE 733067)

7. How to communicate on current projects

Ongoing improvement Monitoring of suggestions, LEAN 5S projects etc. in progress. Communicating about a LEAN project with all employees has one clear aim: developing a culture of operating excellence. All operators must be able to situate themselves in relation to the project and identify their contribution to its success. Communicating well about your LEAN projects boosts morale and brings people together.

- Follow-up on the suggestions,
- 5S project and audits
- PDCA, SMED, KAIZEN, etc...projects

8

(CODE 733068)

8. How to organise the management

Management Predict (aims and means), organise (means and methods to achieve targets), order (make decisions and give directives), coordinate (actions and roles) and control (measures taken and compare results with targets) - all this can be done with SESAHUB.

- Staff planning, holidays planning, trainings, etc, ...

9

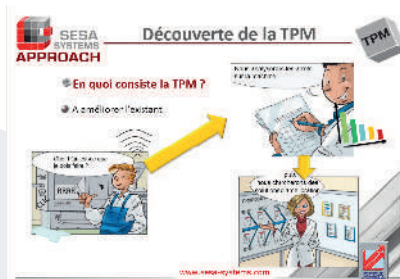

(CODE 733069)

9. OPTIMISE YOUR EFFECTIVENESS

Training The effectiveness of Lean approaches and the significant gains achieved are confirmed by a number of companies. SESAHUB provides 17 quick training modules (5S, SMED, KAIZEN etc.) to develop the skills of employees within the company. Training modules help to identify possible areas for improvement within your company.

- Trainings: 5s, TPM, Visual Management, Kanban, Autonomous Teams, Kaizen, PDCA, Lean Manufacturing and Office, Hoshin, Safety, SMED
- Video tutorials

Note : Possibility of direct links with ERP, CMMS, MES, etc, ... (code 733070)
