

In order to guarantee you total satisfaction, SESA SYSTEMS aims to advise you and offer you products that meet your requirements.

We offer you different services:

- Maintenance contract. The contract allows you to maintain your software on an annual basis.
- Software parameter setting. We take care of the installation of the software remotely or at home.
- Software training. This training on site or at our headquarters allows you to use and know all the software's functionalities.
- The Server aims to facilitate the implementation of SESAHUB, reduce installation time at our customers' premises and offer a guarantee of reliable and fast use
