

THE INTEREST OF LEAN OFFICE

OFFICE FURNITURE

LEAN Office is a method for administrative flows simplification, reduce waste and daily integration of visual management. The company has become a necessity that needs to be maintained day after day by means of shared and ongoing progress. We want to put people at the heart of organisation by means of visual management and ergonomic products to provide better working conditions, giving greater peace of mind.

Advantages of an ergonomic Lean Office:

- Making the administrative flow visual
- Preferring high added value operations and reducing or eliminating useless operations
- Saving processing time and saving space
- Improving the competitive advantage by a better organization of workflows and through better postures at the workplace
