

# News for 2020

## Ergonomy

The 3 best reasons for ergonomic workstations: the human aspect (creating working conditions without negative health consequences), productivity (improve quality and yields by preventing forced positions and illness) and lastly motivation, satisfaction and mental wellbeing.

SESA SYSTEMS' R&D team factors ergonomics into the design of its products.

### QUALIPOST 620 ERGO

With its «up and down» system, electric workstations favour a dynamic and totally adapted position to reduce fatigue, TMS and increase productivity.

#### E.MEETING INTERACTIVE SCREEN

Track your production data in real time, organise meetings where your users interact simultaneously!

## Industry 4.0

### Internet of things

The Factory of the Future refers to the 4th industrial revolution after mechanisation, industrialisation and automation. Use workshop digitisation to boost your teams' productivity!

**Discover the new line of innovative and interactive products developed by SESA SYSTEMS to integrate the factory of the future.**

### Order
