- Lean Manufacturing
- Production
- Quality

The **electric workshop workstation** |QUALIPOST 620 ERGO that can be adjusted in height provides optimum conditions for improving working conditions and performance in workshops.

The operator can adjust the height of his work surface and adopt the best working position according to his needs in order to reduce musculoskeletal disorders (MSDs). He can switch as he likes between the sitting position or standing position or the sit-stand position. The ergonomic of this sit-stand workstation is maximised with the use of ergonomic seats and stools.

Optionally equipped with a rear bottom on a grooved anodised aluminium structure and lacquered white sheet steel, this electric workstation combines comfort of use with the fastening of accessories and visual communication with the display of magnetic document supports.

The ergonomic workshop workstation is an effective way to assist in reducing the tediousness of tasks and as such boost productivity and performance on a daily basis with increased safety and comfort when working.

- Optionally equipped with a white lacquered sheet steel rear bottom on anodized grooved aluminum frame, facilitating the mounting of accessories
- Many compatible QUALIPOST 600 accessories (p. 69 to 72).
