

Application

- Workstation accessories
- Workshop
- Lighting
- Warehouse
- Industry
- Lean Manufacturing

LED workstation lighting is essential to guarantee a sufficient level of light and avoid visual fatigue and discomfort. All LED workstation lights are equipped with an Infrared Sensor, which just needs a hand movement of less than 50 mm/1,96 Inch to turn the lights on or off.

- ON/OFF function with the Infrared Sensor detector (maximum IR distance of 50 mm/1,96 Inch)
- Extremely uniform, non-dazzling lighting
- Robust aluminium casing
- Different lengths for a variety of workstations, workshops, assembly stations

Accessories
