

LED lamp

LED lamp 16W

This light on an articulated arm is both variable and functional due to its 3D tiltable head.

- Its LED technology and colour temperature (5000k neutral white) ensures you will have an extremely well-lit working surface. Ideal for precision work.
- A touch button located on the top of the lamp allows you to easily switch it on/off and adjust the brightness.
- Finely adjustable arm.
- 3D movement of the head
- Light body in anodised aluminium and grey plastic
- IP 20 protection rating
- Head dimensions: 360 x 80 x 22.5 mm / 14.17 x 3.14 x 0.88 Inch
- Built-in supply block and wiring inside the arm for connection to the mains supply.

LED lamp 18W

This swivel arm lamp is both robust and very precise for room lighting. Thanks to its technical details, in particular its construction entirely in metal, it offers significant guarantees in terms of investment safety.

The head-height 3D articulation, very intense light and exceptional light quality ensure precise adjustments and create new benchmarks in terms of ergonomics. Maintenance-free LED lighting offering powerful and uniform light

- Precision-adjustable arm and 3D movable head
- 3D joints at the level of the head
- Extremely resistant construction entirely in metal
- Impact-proof diffuser and high protection index
- Built-in power supply and inside-arm cable for connecting to network voltage

Magnifying lamp

The magnifying lamp is the solution for tasks demanding detailed work on miniature parts. When at a production workstation, you need to test or manufacture parts with microscopic precision and have to have good visibility of the details. The magnifying lamp has the perfect lens to meet these demands – and with its 63 LEDs, it also offers adequate lighting.

- Maintenance-free LED lighting
- Low-distortion magnification right to the edge
- Stepless dimming
- Reinforced plastic lens
- Precision-adjustable flexible arm
- Compact design
