

T.P.M. : APPLICATIONS

TPM : Total Productive Maintenance

Total Productive Maintenance is explained as follows:

Maintenance

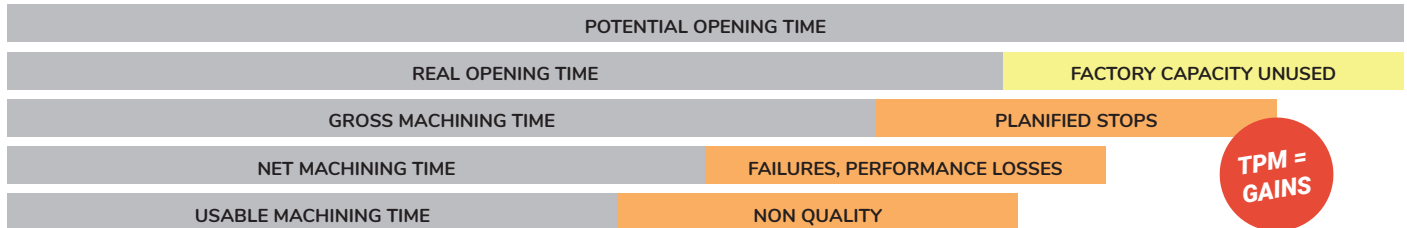

Maintaining = repairing, cleaning, lubricating and accepting to spend time on it.

Productive

Trying to ensure it, while producing and penalising as less as possible the production.

Total

Considering all aspects (even repainting the machine) and associating every one.

WORKSHOP FURNITURE

Management of «Anomaly detection»

REPORT OF ANOMALY

Visual indicators

Visioflash Speedmeter

Workshop maintenance
